FATIGLESS™ CHAIN FEEDING

Technical Systems proudly introduces the newest addition to our industry-leading Fatigless™ family — the Feeder Chain.

Known as “The Chain That Never Breaks,” our Fatigless™ trademark now powers a premium feeder solution that pushes performance to new heights. Engineered built to last, the Feeder Chain delivers unmatched durability without compromising environmental responsibility.

Manufactured with less Volatile Organic Compounds, it not only extends the lifespan of your livestock systems but also supports a healthier, safer environment.

Robust, Refined and Resilient Fatigue Life.
The future of chain feeding systems.

Mechanical Performance

- Fatigue life up to 30%
- Peak load up to 10%
- Significant improvements in wear rate
- Corrosion resistance
- Superior yield strength
- Hardness and dimensional tolerance maintained

Results

- Lower breakage rates
- Lower knuckle wear
- Smooth installation
- Less maintenance

Environmentally Sustainable

- Coating contains no heavy metals
- Reduced carbon footprint
- Processes are more eco-friendly

Packing

Standard Pallets TYPE S

Meters

1 x 6 m container = 22 pallets
1 x pallet = 1,080 m
108 rolls x 10 m per pallet
Total of 23,760 m per 1 x 6 m container

Feet

1 x 20 ft container = 21 pallets
1 x pallet = 3,600 ft
144 rolls x 25 ft per pallet
Total of 75,600 ft per 1 x 20 ft container
